

UM5_{BTI}

UM5BTI: DEF Buffer Tank Interface (CAT)

- Stainless Steel Enclosure
- Ball Valves, Gauges, Pressure Switch, Pressure Reduce Valve, Solenoid Valve
- All Stainless Construction
- Interface to C1 or C8 Controller

Standard Accessories	All 304 Stainless Pressure Gauges Pressure Switch Solenoid Valve Pressure Reducing Valve
Optional Accessories	C8 Controller Heater
Enclosure	12 x 12 x 8 (300 x 300 x 200) NEMA 4X

Description	The Interface panel provides a low pressure 3-5 PSI DEF supply to the CAT Buffer Tank. The unit adjusts the inlet supply pressure when the Buffer Tank refill is active. And it isolates the Buffer Tank from higher pressure for multi-generator systems
